PROFILE

MBA Tech student combining Computer Engineering and Finance, with a multidisciplinary background spanning technology, analytics, leadership and creative work. Experienced in Python-based development, databases and user-facing applications through an internship at ONGC, alongside three years of increasing responsibility across technical, creative and event teams. Seeking opportunities across product, finance, analytics and operations where I can combine structured problem-solving with creativity and business understanding.

EXPERIENCE

Oil and Natural Gas Corporation (ONGC) - Technical Intern May 2026 - Jul 2026
- Built ARES, a local retrieval-augmented generation system that lets users search and question organizational documents while keeping processing local.
- Developed the document-processing and vector-retrieval workflow using Python, ChromaDB, Nomic embeddings and Mistral 7B through Ollama.
- Integrated FastAPI, React and SQLite components and designed file-aware retrieval plus role-based admin and user workflows.

PROJECTS

LedgerLens - Annual Report Analyzer 2025
- Built a financial-analysis tool for annual reports and company data across PDF, Excel and CSV formats. Extracts key financial metrics, compares year-over-year performance, and surfaces management commentary on growth, risks and strategy.
Handwriting Detection System 2025
- Used ML and image analysis to detect handwriting, convert it into text, and develop it into custom fonts.

LEADERSHIP & ACTIVITIES

Social Conclave, NMIMS - Vice-Chairperson 2026
- Coordinated event, digital, creative and technical teams; progressed from Sub-Head (2024) to Head (2025) to Vice-Chairperson (2026).
IIT Bombay Techfest MUN - USG Design 2024
- Created graphic-design and visual-communication assets for the student conference.
MUNSOC, NMIMS - Associate Head 2025
- Supported team coordination, planning and execution across society activities and events.
Student Council Social Impact - Senior Executive
